

Crow7 hail from Germany. Crow7 calls their personal music style ProMeRo (Progressive Metal Rock). The members are surrounded by the energy of mystic forces that brought the band to call themselves "Crow7".

The name invokes symbolism and magic for the 4 members. From the moment that the band came to life the members gave rise to their new stage names. Crow7 believe that light can only exist through darkness; the good in us lives in balance with the evil. The music of Crow7 relates directly to this philosophy taking the listener on a sonic journey through the dimensions of good and evil in the world.

Crow7 give rise to the meaning of hope for a better world in all they do. Their music is uplifting and captures the essence of this belief from the band. Just listen and you will hear the magic of Crow7 as it blends with your soul and takes you on a magical mysterious journey to new dimensions in time and space.

Crow7 had supported the Metal-Orchestra Haggard on their European 2011 tour for 2 month, through 8 countries. The studio work for the new album had to pause during this time.

Since June 2011 the band have been back in the HauntSound studios to finish the recordings for their 3rd album. Early winter time the album will be released and also the video clip of the first single "Symphony Of Souls" will be finished just in time.

Crow7 is a Blue Pie artist and is out now on Blue Pie for the world. For more information go to www.crow7.de or search "Crow7" on Google.

"To sum up Symphony of Souls, I would recommend this album to anyone who is a fan of progressive metal. This album has literally so many blends and influences there is something for every metal head out there."
