Biography

Writing and singing music since he was 10 years old, a platform was formed that helped launch the career of Toronto singer songwriter Erik Simins. Ultimately performing his own material has led to the creation of his new album "Please do not disturb".

Influenced heavily by the great talents of James Ingram, Earth Wind and Fire, Hall & Oates, Eric Clapton, James Taylor and Prince, Erik's quest to develop his song writing combined with his formal training in vocals, piano & guitar, has helped him produce a unique highbrow of R&B, pop and folk.

The release of Erik's first full-length album "Please Do Not Disturb" is a mixture of smooth sonically adept mixes and slick alive beats. Collaborating with Juno Award nominee and producer Adam Messinger has resulted in his first hit single "Parents House" that has already received extensive airplay on Canada's number one urban music station Flow 93.5, considerable recognition across Canada's Commercial Hit Radio circuit and a spot on Flow's last two urban Soul compilations.

The album and "Parents House" are being added to FM radio globally. The music video released in conjunction with the single is bringing Erik significant rotation on MuchMusic, MuchVibe and MTV Canada. "Parents House" has since topped major play on commercial and independent radio in Canada and created a solid foundation to launch Erik to the world.

Beating out a pool of successful songwriters, "Parent's House" was selected for the feature track of "Making It Big", a television show that debuted in Spring to over 35 million households across Canada and the United States. With a number of cameo appearances on the series, Erik was given the opportunity to demonstrate his talents to a much larger audience, guaranteeing him the exposure to gain new fans on an international scale.

Coupled with rave reviews and hit songs, the album has been hailed with numerous gold and silver design awards at the New York Festival for CD design and the Art Director of Canada Design Show.

In 2007 the album charted globally and was top 40 on iTunes, went top 40 on the Australian National ARIA chart and went top 20 on the AIR Independent Charts. The album is one of RnB's top creepers for 2009. "There are just so many great tracks in this collection of songs it is hard to pick a favourite" as Erik says.

Erik is out now on Blue Pie for the world. His hot new single "Let's Roll" is out now at all leading digital retailers on the planet. This is the third single to be lifted from his debut album "Please do not disturb"

Erik has toured through Europe in 2005 and was asked to perform live on the legendary Carnaby St., London, England where a week prior both John Legend and Kanye West blessed the stage. Live interviews with South London's 101.4 Bounce FM and Soler Radio helped continue to build his international fan base. Australian tour dates will be announced shortly.

Rated the number one R&B/Soul artist on www.myglobalsound.com with "The way I see it" being added to MGS's compilation disk distributed throughout Miami, Florida. Erik's popularity skyrocketed with iTunes recognizing his hit potential, placing him not only on their Canadian roster, but on their U.S. and European sites.

Description:	There's no joke about this talent from Toronto Canada. He's a 2010 renaissance man who's got 70's funk in his licks and today's soul in his chops. The beats of John Anthony, wrap his next album that I was lucky enough to preview in the studio with "e". Fans can also get a preview on Erik's MySpace site. His latest single released by BluePie "Lets Roll" is seriously OldSkool, almost on a 80's pop tip, sampling 'locomotion' like sounds and Sly Fox 808 beats. This is the third single from his first album "Please do not disturb". His fan base continues to grow as Blue Pie is emerging across the globe as a leader in digital music distribution.

Frequently Ask Questions

AMC Support:

Blue Pie has a new 24 hour help desk system here to manage any and all support issues. Please send an email to support@bluepie.com.au for all support issues and statement enquiries. The support desk is manned by Blue Pie staff between the hours of 8am to 6pm - Monday to Friday and 11am to 5pm on Saturdays - Sydney Australia Time. Please make sure that you provide all the information and details relating to any support issue that you have. The more detail that we have the faster we can help to resolve the support request.

Please note that the support / help desk system will issue you a job ticket or receipt for your enquiry. If you did not get one from the system then you will need to enter the details in again. Please allow up to 30 minutes for the email receipt to be sent to you. The reason why some emails take this long is due to the number of mail servers and general spam filters that people use these days.

Thank you for reading about the Blue Pie help desk and support system.

GENERAL BLUE PIE INFORMATION

Q. What is your mission at Blue Pie?

Our mission is to make sure that your music is in as many of our retailers as possible and to make sure that all the information that we have in our systems is correct and accurate. This means that we have to rely on you, your label and your management to make sure that we have all the latest information on your movements and when you will be touring.

Q. Why would we take a chance on a company as far away as Australia when we don't recognize any of the artists, with the exception of a few, when there's no North American exposure and we don't know what the ultimate results or possibilities could be?

The world is an ever-changing place and it is adapt or die! If you are happy with the level of income that you are making and have all the answers, then continue on the pathway you are on.

We have a solid queue of acts and managers knocking on the door to work with us. What the managers and your network need to think about is this:

- The Major Labels are in a state of cut-backs and are currently revising their business models
- The Major Labels have 50% of the staff that they had 15 years ago, some with less than 25% of the staff that they had
- To sign to a major label, acts need to have a much more than a great sound and they must be willing to provide a major with a 360 degree deal for all rights. Unless you are a "Lady Gaga" or the "Jonas Brothers with a hit TV show" there are very limited options out there for an artist to simply be an artist and focus on their craft as opposed to being a part-time businessperson trying to cut in a very highly competitive world. This is what most artists simply fail to understand.
- There are over 1 million new songs released each year in the world between the USA, Canada and Europe. This and the many existing acts and previous releases along with the majors means that you MUST have a team and a solid business model in order to make the business a working profitable success.

Q. So what's it all mean?

This means you need to resource a team. You need an experienced management team that knows what they are doing and have the success history to develop the business model. You need to realise that time is money and this is a resource that you will never get again. Either do things properly or become a statistic.

We spend half of the time working with acts that have invested well over \$100K into their albums and they realise that they need to get a marketing machine to make this all work or the album will simply die. We offer the services of a full circle label and develop partner models that allows business to develop and provide the act with some real hope of returning a profit on their investment.

A little something about me written in New York's Press M:

"He'll have tea with the Queen then kicks the sh*t out of the gaurds". A pretty boy who'd be happy to rumble with the best of them. There's no joke about this talent from Toronto Canada. He's a 2010 renaissance man who's got 70's funk in his licks and today's soul in his chops. The beats of John Anthony, wrap his next album that I was lucky enough to preview in the studio with "e". Fans can also get a preview on Erik's MySpace site. His latest single released by BluePie "Let's Roll" is seriously OldSkool, almost on a 80's pop tip, sampling "Locomotion" like sounds and Sly Fox 888 beats. This is the third single from his first album "Please do not disturb".

His fan base continues to grow as Blue Pie is emerging across the globe as a leader in digital music distribution. Erik Simins as one of their lead artists is getting a serious push through on line promo and a follow up tour for the new album scheduled for down under in 2010. Reviewing the album which is fully released on iTunes and available all over the world, it is FULL. It took me to back to the days of crying over my first love in early highschool with "This Time", to partying in my early 20's with my girls with "Yesterday", to playing hooky last Monday and spending the day in bed with Alberto who's visiting from Italy with "Rainy Monday". The hooks are contagious and left me singing "All at your Parent's House" for about a week. I realized I hadn't made out with a guy at my parent's house for about 10 years, but who cares... the song is wicked!

Ashleigh Hubbard, Press M - 2009

bio
download - july 2009

Writing and singing music since he was 10 years old, a platform was formed that helped launch the career of Toronto singer/songwriter Erik Simins. Ultimately performing his own material has led to the creation of his new album "Please do not disturb".

Influenced heavily by the great talents of James Ingram, Earth Wind and Fire, Hall & Oates, Eric Clapton, James Taylor and Prince, Erik's quest to develop his song writing combined with his formal training in vocals, piano & guitar, has helped him produce a unique highbred of R&B, pop and folk.

The release of Erik's first full-length album "Please Do Not Disturb" is a mixture of smooth sonically adept mixes and slick alive beats. Collaborating with Juno Award nominees and producer Adam Messinger has resulted in his first hit single "Parent's House" that has already received extensive airplay on Canada's number one urban music station Flow 93.5, considerable recognition across Canada's Commercial Hit Radio circuit and a spot on Flow's last two urban Soul compilations.

The album and "Parent's House" are being added to FM radio globally. The music video released in conjunction with the single is bringing Erik significant rotation on MuchMusic, MuchVibe and MTV Canada. "Parent's House" has since topped major play on commercial and independent radio in Canada and created a solid foundation to launch Erik to the world.

Beating out a pool of successful songwriters, "Parent's House" was selected for the feature track of "Making It Big", a television show that debuted in Spring to over 35 million households across Canada and the United States. With a number of cameo appearances on the series, Erik was given the opportunity to demonstrate his talents to a much larger audience, guaranteeing him the exposure to gain new fans on an international scale.

Coupled with rave reviews and hit songs, the album has been hailed with numerous gold and silver design awards at the New York Festival for CD design and the Art Director of Canada Design Show.

In 2007 the album charted globally and was top 40 on iTunes, went top 40 on the Australian National ARIA chart and went top 20 on the AIR Independent Charts. The album is one of RnB's top creepers for 2009. "There are just so many great tracks in this collection of songs it is hard to pick a favourite" as Erik says.

Erik is out now on Blue Pie for the world. His hot new single "Let's Roll" is out now at all leading digital retailers on the planet. This is the third single to be lifted from his debut album "Please do not disturb".

Erik has toured through Europe in 2005 and was asked to perform live on the legendary Carnaby St., London, England where a week prior both John Legend and Kanye West blessed the stage. Live interviews with South London's 101.4 Bounce FM and Solar Radio helped continue to build his international fan base. Australian tour dates will be announced shortly.

Rated the number one R&B/Soul artist on www.mylabsonline.com with "The way I see it" being added to MD's compilation disk distributed throughout Miami, Florida. Erik's popularity skyrocketed with i-Tunes recognizing his hit potential, placing him not only on their Canadian roster, but on their U.S. and European sites.

Blue Pie Productions are releasing the album world wide with a major marketing and promotional campaign. Erik Simins is distributed for the world by Blue Pie. You can get the album at all leading digital retailers on the planet or ask for the album by name at all leading retailers around the world.

Erik will be announcing tour dates from 2010. Keep checking his website and my space pages for details and the latest news.
