

Suga Boom Boom breaks 16 Million! The biggest milestone yet!

.....

PRESS RELEASE EFFECTIVE IMMEDIATELY 23.04.20

Spotify is seeing a big booming increase to Suga Boom Boom's playcount! We've reported on a combination of plays across all platforms for Suga Boom Boom before, [amounting to over 20 million combined plays](#). But that was COMBINED plays, across multiple platforms! Now, we're talking JUST Spotify... and yep, on Spotify ALONE, at the time of writing, Suga Boom Boom has hit 16,034,909 plays! Suga Boom Boom has also hit a decent stride on Spotify, seeing as it's currently at 1,320,397 plays!

These milestone songs are still chugging along, and Down3r's catalogue is still brimming with modern classics. And those classics, in turn, are brimming with emotion! [Especially "Hear Me Now"](#) Down3r's latest track to rival "Wear Me Down" in terms of tearjerking!

Be sure to give it a search, because this song is truly special. But really, all of Down3r's tracks are, which may be why Suga Boom Boom is DL's ol' reliable. Tried and true, his fans continue to flock to it ever since its release – that's how you know that a song is truly something unique. It doesn't drop out after its fad is over. It isn't just a temporary craze. It's a song that will be really remembered for its high quality! But to an extent, all of Down3r's tracks are this too. They may just need to be discovered.

So! For the few of you in the readerbase who are STILL unlucky enough to have not heard of Down3r after all this time and aren't sure where to start, consider this an introduction to the rest of your hip hop life!
