### RAY VANDERBY "FUNKY SPACE MUSIC"

This particular release stands out among Ray's entire catalogue, and it lives up well to the spacey nature of its namesake. The funk doesn't overpower Ray's skill with the piano, which shines through in the track's overall composition, which serves well this often celebrated talent of Ray's. When he tickles the ivories, he sets the bar, even in space!

Funky Space Music is just a taste of the many interstellar tracks that await you in Ray Vanderby's newest album, [Comet 2 Comet!](#)

### JAY. YOUNG & DAMIEN REILLY "OXYGEN (BOXON FUTURE HOUSE)"

With every artist, there's one track that put them on the map forever, and for Jamaican Recording Artist JAY. Young, "Oxygen" was that landmark!

The playful melody of the guitar strumming leads you in seductively in the *Boxon Future House* mix, and once you're in grasp, it'll pull you onto the club floor! It's a different kind of party in this version of the track, less of the traditional dance party and more of a bop house!
